RE: Petition to Change the Zoning Map at 850 Indianapolis Blvd., Hammond, IN

Dear Board Members:

NH Vegas, LLC currently owns the parcel at the intersection of Indianapolis Blvd. and Marina Drive – the parcel is located between the I-90 off-ramp and Marina Drive, just south of Indianapolis Boulevard in Hammond and operates the fueling station and car wash business located at the 850 Indianapolis Blvd. address.

In keeping with the City of Hammond's efforts to improve the physical attractiveness and marketability of the business community in Hammond's Robertsdale neighborhood, NH Vegas is proposing the demolition of the existing structure at 850 Indianapolis Boulevard (Luke Oil BP gas station) and construction of a new carwash and gas station facility. The existing car wash facility would be expanded and remodeled as a retail firework store. This development would transfer the existing retail firework location from 10770 Indianapolis Blvd. – this development would not increase the number of retail firework locations in Hammond.

The overall development concept is to construct aesthetically pleasing buildings with site improvements to provide more efficient traffic flow. The development will be an upgrade for both Luke Oil and the City of Hammond at this important city gateway. The city's engineering department is currently reviewing the site plan to ensure compliance with all applicable ordinances and requirements. The property at 850 Indianapolis Boulevard is currently zoned I-2. We believe C-4 zoning is a more appropriate zoning classification for the current and proposed land use and is consistent with the City's Comprehensive Land Use Plan. On behalf of NH Vegas, LLC, Luke Builds respectfully requests approval of the petition to change the zoning map for the property located at 850 Indianapolis Boulevard from I-2 to C-4.
