CONSTRUCTION

Section 1.1 Construction of Project.

A. The Developer, as managed by Decenal, and Tenant shall commence or cause the commencement of construction of the Project no later than one year after the Effective Date, or earlier at Developer’s discretion if weather permits (the “Commencement Date”). Subject to force majeure and construction delays caused by events outside of Developer or Tenant’s reasonable control, the Developer will use its commercial best efforts to substantially complete the Project no later than December 31, 2028 (for full assessment on January 1, 2029) (the “Targeted Project Completion Date”). Notwithstanding any other term of this Agreement, if the Developer does not substantially complete the Project by December 31, 2029, then such failure shall constitute an Event of Default by Developer under this Agreement.

Section 1.2 Construction and Operation of the Project.

Except in compliance with Applicable Laws pertaining to hazardous materials and in connection with the construction, operation, maintenance, and repair of Data Center 1 and/or Data Center 2, Developer shall not cause or permit any hazardous materials to be brought upon, kept, used, stored, discharged, released or transported to or from the Project Site without the prior written consent of the City.

Section 1.3 Developer to Construct the Project.

The Developer, as managed by Decennial, shall commence or cause the commencement of the construction of the Project in accordance with all applicable building codes of the City and the terms of this Agreement. The Developer shall complete or cause the completion of the Project in accordance with the schedule set forth in Section 1.1 of this Agreement.

Section 1.4 Project Cooperation Between Developer and the City.

The Redevelopment Commission acknowledges and agrees to the right of the Developer and Tenant to develop, acquire, lease, construct, equip and operate the Project in accordance with Applicable Laws, without undue interference from or disruption by the Redevelopment Commission, as a successful commercial venture. The Redevelopment Commission and the Developer recognize that by creating additional jobs and investment, the construction of the Project benefits the community. Accordingly, the Redevelopment Commission and the Developer agree to work together towards the successful completion of the Project and timely respond to each other.

Section 1.5 Areas Affected by Work.

The Redevelopment Commission shall not be liable or responsible for any damage to any land or area, or damage to the owner or occupant of any land or area, that results from construction

of the Project on the Project Site or relates to the performance of work or the non-performance of the Developer's obligations under this Agreement.

Section 1.6 Project Documents.

The Developer shall maintain the following during construction of the Project in a safe place on the Project Site or in an office of the Developer adjacent to or within one (1) mile of the Project Site: one (1) set of all plans, specifications, drawings, addenda, written amendments, shop drawings, change orders, work directive changes, field orders and written interpretations and clarifications, such set to be in good order and annotated to show all changes made during construction relating to the performance of the work or construction of the Project or any component thereof, which documents shall be available to the City and the Redevelopment Commission for such reference as may reasonably be required. The Developer shall provide five (5) architectural renderings for the Project to the City for display at various City government buildings during the construction of the Project. Upon completion of the construction of the Project, a copy of all "as built" and recorded drawings shall be properly delivered to the City for the Inspections Department-Building Division's permanent records.

Section 1.7 Project Safety.

The Developer's general contractor shall be responsible for initiating, maintaining and supervising all safety precautions and programs in connection with the development and construction of the Project and performance of the work. The Developer's general contractor shall take all legally necessary precautions for the safety of, and provide protection as reasonably necessary to prevent damage, injury or loss to:

- A. all workers and laborers providing labor for the construction of the Project;

B. all materials and equipment incorporated in the Project whether in storage or located at the Project Site; and

C. other property at the Project Site or adjacent or in proximity thereto including trees, shrubs, lawns, walks, pavements, roadways, structures, utilities and underground facilities not designated for removal, relocation or replacement in connection with the construction.

Section 1.8 Drug Free Workplace.

The Developer agrees to undertake reasonable efforts at all times to provide and maintain a drug free workplace at the Project Site.

Section 1.9 Labor Objectives and Requirements.

A. The Developer agrees that the Project shall be subject to all applicable City labor-related ordinances and resolutions.

All construction contractors of whatever tier will, in order to best assure all construction work is performed in a safe and skilled manner, use (i) the United States Department of Labor Bureau of apprenticeship and training registered apprentices and journeyman, or (ii) factory-qualified technicians, in the event equipment, material, or commissioning of the same require work to be completed by a factory-qualified technician to ensure proper installation, operation, and commissioning in accordance with manufacturer specifications and warranties.

Prior to any construction work, the general contractor and delegates from any subcontractors of whatever tier that are retained at such time shall perform a pre-job conference (the "PTC") with the Affiliates of the Northwestern Indiana Building and Construction Trades Council. Any subcontractors retained after the PTC shall be provided and educated on the information provided at the PTC prior to such subcontractor commencing work on the Project.

All construction contractors of whatever tier shall perform a pre-job conference with the Affiliates of the Northwestern Indiana Building and Construction Trades Council before any construction work begins.

B. Hammond Contractors and/or Lake County Contractors.

1. Local Labor Force. The Developer acknowledges the creation of construction jobs in the City and the northwestern Indiana (Lake County), in particular, and other portions of the State, in general, is a principal goal which the Redevelopment Commission wishes to achieve as a result of the Project. Therefore, Developer shall use reasonable good faith efforts to contract with and engage contractors and subcontractors for employment opportunities relating to the construction of the Project in the following order of preference: first, in the City; second, in Lake County, Indiana; and third, in other areas of the State, to the extent such contractors and subcontractors are reasonably available on a competitive basis (including the economic, quality, performance, workforce availability and other relative considerations). Reasonable good faith efforts shall mean that the Developer shall include in all bid packages or requests for proposals a provision that each contractor, construction manager, and subcontractor shall be given an incentive or other priority in awarding of a bid to: (i) hire supervisory labor and construction workers who perform any of the work, first from the City, second from Lake County, Indiana, and third from other areas of the State; and (ii) to have at least a majority of its non-supervisory laborers and construction workers who perform any of the work hired from such areas, with priorities set forth above. The Developer shall participate in a meeting with interested City contractors prior to publication of Project bids. The Developer shall maintain evidence of the notices or request for proposals/bids that are sent out, the identity of the bidders, the

names of the successful bidders, and the reasons for rejecting any bidders with principal places of business in the City, Lake County, Indiana, or the State, that otherwise comply with the bids. The Developer will present said evidence to the Redevelopment Commission upon reasonable request.

2. Record-keeping. The Developer agrees to maintain a record of all relevant data with respect to compliance with this section and to provide the City, the Mayor and the Redevelopment Commission with such information no less frequently than quarterly until completion of the construction of the Project.

C. Non-Discrimination.

The Developer shall not discriminate against any applicant for employment with respect to the employee's hire, tenure, terms, conditions of employment or any manner directly or indirectly related to employment, because of the employee's race, religion, color, sex, age, genetic information, disability, sexual orientation, national origin, ancestry, disabled veteran status or veteran status.

Section 1.10 Developer Covenants.

A. General. Developer and Decennial covenant and agree that they will:

i. Use commercially reasonable efforts to provide a full and complete site plan to the City, the Redevelopment Commission and appropriate agencies at least ninety (90) days prior to the commencement of the Project, and in any event, as soon as is reasonably practicable prior to the commencement of the Project.

ii. Utilize its best efforts, subject to Force Majeure and construction delays caused by events outside of Developer or Tenant's reasonable control, to complete the Project on or before the Targeted Project Completion Date.

Section 1.11 Incentive. The City, the City of Hammond Common Council (as the “fiscal body” and/or “designating body” pursuant to I.C. 6-1.1-10-44), and the Redevelopment Commission hereby, subject to the completion of such procedures as are required by law, (i) agree to support and take all necessary and reasonable action to support the request of Developer and Tenant for any of the following Incentives that require any additional or future action from the City of Hammond Common Council, and (ii) authorize, approve, provide, and agree that that the following Incentives shall be effective in all respects as of the Effective Date:

A. Data Center 1: Pursuant to I.C. 6-1.1-10-44, a one hundred percent (100%) exemption on all Tenant’s Personal Property meeting the definition of Enterprise Information Technology Equipment (as defined in this Agreement) currently located (or located in the future) in any leased or owned space of Tenant at Data Center 1, which exemption shall be effective as of, and may be claimed by Tenant from, the Effective Date for a term equal to the lesser of (i) twenty (20) years (and for the purpose of clarity the Parties hereby agree that Tenant may claim such exemption as of January 1, 2025, for any Enterprise Information Technology Equipment located at Data Center 1 as of January 1, 2025), and (ii) the Data Center 1 Termination Date. The Parties hereto understand, stipulate, and agree that this Agreement shall not in any way limit the amount that Tenant may invest or expend in connection with Tenant’s Personal Property located at or installed at Data Center 1 during the Term (as defined herein) to which the exemption described in this Section 1.11.A may apply.

B. The Project (301 Digital Crossroads/Data Center 2):

1. Pursuant to I.C. 6-1.1-12.1, a ten (10) year real property deduction for the Project Site real property, Real Estate, and any real property improvements on the Project Site, received in the following amounts, expressed as a portion of the assessed value: first year – 100%; (ii) second year

– 90%; (iii) third year – 80%, (iv) fourth year – 70%; (v) fifth year – 60%; (vi) sixth year – 50%; (vii) seventh year – 40%; (viii) eighth year – 30%; (ix) ninth year – 20%; and (x) tenth year – 10%.

2. A twenty (20) year super abatement at one hundred percent (100%) on Developer and Tenant's business Personal Property located at Data Center 2 (not meeting the definition of Enterprise Information Technology Equipment (as defined in this Agreement)) during the Term, pursuant to Indiana Code, I.C. 6-1.1-12.1-18, which deduction shall be effective as of, and may be claimed by Developer and/or Tenant from, the Effective Date for a term to the lesser of (i) twenty (20) years, and (ii) the Data Center 2 Termination Date. The Parties hereto understand, stipulate, and agree that this Agreement shall not in any way limit the amount that Developer and/or Tenant may invest or expend in connection with Developer and/or Tenant's Personal Property located at or installed at Data Center 2 during the Term to which the deduction described in this Section 1.11.B.2 may apply. Any equipment and/or traditional business Personal Property (not meeting the definition of Enterprise Information Technology Equipment (as defined in this Agreement)) purchased by Developer or Tenant during the Term of this Agreement will be eligible for up to twenty (20) years super abatement periods effective as of the time that such equipment is located or installed at Data Center 2; provided, however, that such abatements shall not be claimed after the twenty (20) year term of the Incentive described in this Section 1.11.B.2 expires as described herein.

3. Pursuant to I.C. 6-1.1-10-44, a one hundred percent (100%) exemption on all Developer and/or Tenant's Personal Property meeting the definition of Enterprise Information Technology Equipment (as defined in this Agreement) located at Data Center 2, which exemption shall be effective as of, and may be claimed by Developer and/or Tenant from, the Effective Date for a term equal to the lesser of (i) twenty (20) years, and (ii) the Data Center 2 Termination Date. The

Parties hereto understand, stipulate, and agree that this Agreement shall not in any way limit the amount that Developer and/or Tenant may invest or expend in connection with Developer and/or Tenant's Personal Property located at or installed at Data Center 2 during the Term to which the exemption described in this Section 1.11.B.3 may apply.

The Tenant shall make payments to the City (the "Community Impact Payments") in the following amounts: (i) for each year commencing with the tax payment year immediately following Effective Date and ending the earlier of (x) twenty (20) years, and (y) the tax payment year immediately following the Data Center 1 Termination Date, the amount of One Million Dollars (\$1,000,000), and (ii) each year commencing with the tax payment year immediately following the year that the Project is substantially completed and placed in service (but no later than 2029) and ending the earlier of (a) twenty (20) years, and (b) the tax payment year immediately following the Data Center 2 Termination Date ("Data Center 2 Payment Term"), the amount of Three Million Dollars (\$3,000,000) provided, however, (aa) if the Data Center 2 Payment Term is scheduled to expire pursuant to the foregoing clause (a), then Tenant shall make a double Community Impact Payment for the twentieth (20th) year (i.e., equal to Six Million Dollars (\$6,000,000)); and (bb) if the Data Center 2 Payment Term expires due to expiration of the lease for Data Center 2 (rather than due to the early termination of the lease for Data Center 2), then Tenant shall make a double Community Impact Payment (i.e., Six Million Dollars (\$6,000,000)) in the year in which such expiration of the lease for Data Center 2 occurs; provided further, however, that for the avoidance of doubt, the Parties acknowledge that no Community Impact Payments will accrue or be due or payable for Data Center 2 until the tax payment year following the initial lien date for any real property or Personal Property placed within or related to Data Center 2, and, no Community Impact Payments will accrue or be due or payable for Data

Center 1 until the tax payment year following the Effective Date. Thus, for example, if the Project is substantially completed and placed in service in 2027, the initial lien date for any real property or Personal Property related to Data Center 2 would be in 2028, and the tax payment year would be 2029, which would be the year the first Community Impact Payment for Data Center 2 would be due and payable by July 1, 2029. If in any given year during the Term of this Agreement Tenant does not claim the exemption described in this Section 1.11 on its Enterprise Information Technology Equipment located in Data Center 1 and/or Data Center 2, as applicable, then Tenant shall be obligated to pay the applicable Community Impact Payment in the year that the tax exemption was not claimed and the following year. Such requirement to make two years of Community Impact Payments shall apply whether or not an exemption has been claimed by the Tenant in a prior year. After the second tax year immediately following the tax year for which the exemption was not claimed by Tenant, the Tenant shall not be required to pay further Community Impact Payments, unless the Tenant claims for the first time or resumes claiming the tax exemption. If the Tenant begins or resumes claiming the deduction, then the Tenant's obligation under Section 1.11.B.3 to make the Community Impact Payments shall resume for the remainder of the term described in Section 1.11.B.3. The Community Impact Payments shall be payable by the Tenant to the City on July 1 of each year.

The Community Impact Payments are to be made for the purpose of raising revenue to be used for the provision of services or other public or governmental purposes in the City. The Community Impact Payments shall be used by the City to improve the quality of life in the City and thereby foster a strong community in which the Project will be located. The Community Impact Payments shall not constitute a payment in lieu of any tax, charge, or fee of the City or any other taxing unit and shall be separate from and in addition to any other payments required to be

made pursuant to this Agreement and any regular installments of locally assessed real or personal property taxes, as the same may become due and payable in the ordinary course. The Community Impact Payments are not “fees for deductions” under I.C. 6-1.1-12.1-14.

C. The 10 year traditional real estate and the 20 year business personal property (non-technology equipment) abatements set forth above in Section 1.11.B.1 and Section 1.11.B.2, respectively, are subject to an annual imposed fee of up to fifteen percent (15%) (not to exceed one hundred thousand dollars (\$100,000.00) per year in the aggregate) of the effective annual tax savings generated from such abatements accruing to Developer and Tenant. Developer and Tenant shall pay their respective share of the imposed fee to the Redevelopment Commission on or before May 15 for each tax payment year that they claim the deductions set forth above in Section 1.11.B.1 and Section 1.11.B.2 and receive tax savings from claiming such deductions.

D. In the event Tenant extends its lease at Data Center 1 or at Data Center 2 beyond twenty (20) years, and Tenant or Developer request further abatements and or deductions pursuant to then existing Indiana law, the City and Redevelopment Commission will favorably and in good faith consider the requests along with a Community Impact Payment comparable to the above, factoring in market conditions at such time.

E. In the event that there is a material Event of Default on the part of Developer or Tenant which Event of Default is not cured within the time periods provided in Section 7.2 hereof, the City and/or Redevelopment Commission shall be entitled to seek any of its remedies pursuant to Section 7.3.

Section 1.12 Permits and Compliance with Applicable Laws.

The Developer, as managed by Decennial, shall be responsible for (a) giving all necessary notices to and obtaining all necessary permits, approvals, consents and authorizations of the proper

governmental authorities having jurisdiction over the construction of the Project and (b) complying with all Applicable Laws bearing on the construction of the Project and shall notify the City of any of the plans and specifications for construction that are at variance therewith. During the construction of the Project, the Developer shall cause the Project Site to be kept free from accumulation of waste materials, rubbish and other debris resulting from such construction in amounts beyond those typically accumulated in a well-managed and well-maintained construction project of comparable scope. Upon final completion of the construction of the Project or any specified portion thereof, the Developer shall cause all refuse and debris, tools, construction equipment, machinery and surplus materials (to the extent such items are not going to be used in the Developer's operation of the Project) to be removed from that portion of the Project Site upon which the work or specified portion thereof has been completed.

Section 1.15 Insurance.

A. The Developer and Tenant shall purchase and maintain insurance at all times during the Term of this Agreement as required by law.

B. Such insurance shall insure against the perils of fire, extended coverage, vandalism and malicious mischief. The Developer shall furnish the City with a certificate of insurance showing coverage of such risks. If a fire or other insured casualty shall occur during the construction of the Project, the Developer shall apply any related insurance proceeds received by the Developer to the construction of the Project. In the event of any fire or other insured casualty involving the Project, the Redevelopment Commission agrees to extend the Targeted Project Completion Date by the reasonable period of time required to repair the fire or other casualty.

Any Party may, in substitution of the foregoing, designate a different address and addresses (and/or fax number or numbers) within the continental United States for purposes of this Section by written notice delivered to all other Parties in the manner prescribed in this Section at least ten (10) days in advance of the date upon which such change of address is to be effective.

Section 9.9 Survival.

All representations, warranties and indemnities set forth in this Agreement shall survive the termination hereof.

Section 9.10 Counterparts.

This Agreement may be executed in a number of identical counterparts and, if so, executed, each such counterpart is deemed an original for all purposes, and all such counterparts shall collectively constitute one Agreement.

Section 9.11 Binding Effect.

Tenant and/or Developer may assign their rights, benefits, and obligations under this Agreement to Affiliates without the consent of the Redevelopment Commission or the City and may otherwise assign their rights and obligations under this Agreement with the consent of the Redevelopment Commission or the City, which consent shall not be unreasonably withheld, conditioned, or delayed. The rights of the Developer, Tenant, and the Redevelopment Commission under this Agreement shall inure to the Developer, Tenant, and the Redevelopment Commission,

respectively, and upon their respective successors and assigns. However, the obligations of Developer and Tenant under this Agreement shall not extend to their shareholders, officers, directors, office holders, employees, agents, consultants, contractors, members, managers, partners, joint ventures or Affiliate, and in the event of a breach or default by the Developer or Tenant of any of their obligations under this Agreement, the City and/or the Redevelopment Commission (as applicable) shall look solely to Developer's interest in the Project Site and/or Tenant's (as applicable) leasehold interest in the Project Site for the satisfaction of any remedies. Section 9.12 Time of the Essence.

Time is of the essence in the performance of this Agreement and each and every provision contained herein.

Section 9.13 Costs of Proceedings.

In the event of the institution of any proceeding relating to the performance of this Agreement, the Parties agree that costs and expenses, including reasonable attorneys' fees and expenses, incurred by the prevailing Party (as defined herein) in connection with such proceeding, will be paid by the non-prevailing Party. The prevailing Party shall be defined as (i) the Party which ultimately is awarded an amount (net of any offsets or counterclaims awarded to the other Party) in excess of the last settlement offer made in writing by the other Party, or (ii) the Party which made the last settlement offer in writing, if the amount ultimately awarded (net of any offsets or counterclaims awarded to the other Party) is less than such last settlement offer, or (iii) the Party

which ultimately is awarded an amount, regardless of sum, if no settlement offer was ever made in writing by the other Party. If equitable relief is granted, the Party in whose favor such equitable relief is granted shall be considered the prevailing Party regardless if a monetary amount is awarded.

Section 9.14 Severability.

If and in the event any provision of this Agreement is determined to be invalid for any reason, it shall be severed and all other provisions not determined invalid shall continue with full force and effect; provided, however, that if (i) such declaration of invalidity relieves a Party of a material obligation to the other, or eliminates a material benefit to a Party, and (ii) the effect of either of the foregoing is to deprive the other Party of substantially all of the benefits to such Party of the transactions contemplated by this Agreement, then the adversely affected Party shall have the right to terminate this Agreement, by giving notice of such termination to the other Party.

Failure by either Party hereto, at any time, to require the performance by the other of any term of this Agreement, shall not in any way affect the right of either Party to enforce such terms, nor shall any waiver by either Party of any term hereof be taken or held to be a waiver of any other provision of this Agreement. A waiver of any term or provision of this Agreement shall not be effective unless the same is in writing, signed by the Parties hereto.
