In the event that Developer does not notify the City and Redevelopment Commission on or before August 1, 2026 of its intention to terminate this Development Agreement, all terms and conditions of this Development Agreement and the Purchase Agreement will remain in full force and effect.

Accordingly, the Redevelopment Commission and the Developer agree to work together towards the successful completion of the Project and timely respond to each other.

Section 1.5 Areas Affected by Work.

The Redevelopment Commission shall not be liable or responsible for any damage to any land or area, or the owner/occupant of any land or area that results from construction of the Project on the Real Estate or relates to the performance of work or the non-performance of the Developer's obligations under this Agreement.

The Developer shall maintain the following during construction of the Project in a safe place on the Project Site: one (1) set of all plans, specifications, drawings, addenda, written amendments, shop drawings, change orders, work directive changes, field orders and written interpretations and clarifications in good order and annotated to show all changes made during construction, relating to the performance of the work or construction of the Project or any component thereof, which documents shall be available to the City, the Mayor and the Redevelopment Commission for such reference as may reasonably be required. The Developer agrees to undertake best reasonable efforts at all times to provide and maintain a drug free workplace at the Project Site.

A. The Developer agrees that the Project shall be subject to all applicable City labor-related ordinances and resolutions.

Notwithstanding the foregoing, and for the avoidance of doubt, all work related to crane equipment, including but not limited to the manufacturing, delivery, installation, commissioning, and integration of such equipment within the Project, shall be performed exclusively by Developer and/or its employees. Such work shall not be subject to any requirement to utilize union labor, union contractors, or union jurisdiction.

B. Hammond Contractors and/or Lake County Contractors.

1. Local Labor Force. The Developer acknowledges the creation of construction jobs in the City, and the northwestern Indiana (Lake County), in particular, and other portions of the State, in general, is a principal goal which the Redevelopment Commission wishes to achieve as a result of the Project. In that regard, Developer shall use reasonable good faith efforts to contract with and engage contractors and subcontractors, with principal places of business in order of preference: first in the City, second in Lake County, Indiana, and third in other areas of the State, for employment opportunities relating to the construction of the Project, to the extent such contractors and subcontractors are reasonably available on a competitive basis (including the economic, quality, performance, workforce availability and other relative considerations). Reasonable good faith efforts shall mean that the Developer shall include in all bid packages or request for proposals a provision that each contractor, construction manager, and subcontractor

shall be given an incentive or other priority in awarding of a bid to:

(i) hire supervisory labor and construction workers who perform any of the work, first from the City, second from Lake County, Indiana, and third from other areas of the State; and

(ii) to have at least a majority of its non-supervisory laborers and construction workers who

perform any of the work hired from such areas, with priorities set forth in (i) above. The Developer shall participate in a meeting with interested City contractors prior to publication of Project bids. Developer shall maintain evidence of the notices or request for proposals/bids that are sent out, the identity of the bidders, the name of the successful bidders, and the reason any bidders with principal places of business in the City, Lake County, Indiana, or the State, that otherwise comply with the bids were rejected, and will present said evidence to the Redevelopment Commission upon reasonable request.

2. Record-keeping. The Developer agrees to maintain a record of all relevant data with respect to compliance with this section and to provide the City, the Mayor and the Redevelopment Commission with such information, no less frequently than quarterly, until completion of the construction of the Project.

C. Non-Discrimination.

Developer covenants and agrees that it will:

A. Provide a full and complete site plan to the City, the Redevelopment Commission and appropriate agencies for approval when the applications provided in Section 1.1 hereof are submitted to the City.

C. As part of the project, Developer agrees to move and reinstall the HVAC equipment at the Hammond Sanitary District facility currently located at 5009 Calumet Avenue, Hammond, Indiana, to an adjacent parcel. Section 1.11 Incentives.

The Redevelopment Commission shall provide the Incentives to the Developer as follows:

B. Sale of the Redevelopment Parcel.

Subject to compliance with all procedures required by law, as promptly as reasonably possible after the date of this Agreement, the Redevelopment Commission shall sell the Redevelopment Parcel to Developer at the price of Six Hundred Eighty-One Thousand One Hundred Eighty-Seven and 50/100ths (\$681,187.50) Dollars. The Redevelopment Commission shall finance ninety-five percent (95%) of the purchase price with a Forgivable Promissory Note and Mortgage. Developer shall pay all closing costs and shall execute and deliver to the Redevelopment Commission the Forgivable Promissory Note at closing. The form of the

Forgivable Promissory Note is attached as Exhibit "B" hereto. The form of the Mortgage is attached as Exhibit "C" hereto. Developer and Developer's officers shall sign/guarantee the Forgivable Promissory Note (Guaranties attached hereto as Group Exhibit "D"). The form of the Mortgage is attached as Exhibit "C" hereto. Developer shall execute the Forgivable Promissory Note and Mortgage. A separate Corporate Guaranty, in the form attached as Exhibit "D", shall be executed solely by Uesco Industries, Inc., an Illinois corporation, as Guarantor. No personal guaranty shall be required from any member, manager, officer, or affiliate of Developer or Guarantor.

Section 1.12 Waiver of Tax Appeals/Assessments

Developer agrees not to appeal the assessed valuation of the Project during the term of the tax abatement granted under this Agreement, provided that the assessed valuation does not exceed the actual, documented construction costs of the Project (exclusive of land and financing costs). Any assessed value in excess of such amount shall remain subject to Developer's statutory appeal rights.

Section 1.13 Waiver of Real Property Assessed Valuation Deductions, Credits or Exemptions

Developer agrees not to seek additional real property deductions or exemptions specific to this Project during the term of the negotiated abatement.

Section 1.14 Permits and Compliance with Applicable Laws.

The Developer shall be responsible for (a) giving all necessary notices to and obtaining all necessary permits, approvals, consents and authorizations of the proper governmental authorities having jurisdiction over the construction of the Project and (b) complying with all Applicable Laws bearing on the construction of the Project and shall notify the City of any of the plans and specifications for construction that are at variance therewith. The City shall cooperate in a timely manner with the Developer in obtaining all such permits, approvals, consents and authorizations to the extent permitted by law. In addition, the City shall process all such necessary permits,

approvals, consents and authorizations that it issues or over which it has authority in an expedited manner.

Section 1.15 Site Management.

During the performance of the construction of the Project, the Developer shall cause the Project Site to be kept free from accumulation of waste materials, rubbish and other debris resulting from such construction in amounts beyond those typically accumulated in a well-managed and well-maintained construction project of comparable scope. Upon final completion of the construction of the Project or any specified portion thereof; the Developer shall cause all refuse and debris, tools, construction equipment, machinery and surplus materials (to the extent such items are not going to be used in the Developer's operation of the Project) to be removed from that portion of the Project Site upon which the work or specified portion thereof has been completed.

Section 1.16 Utility Service During Construction.

The Developer, at its expense and in compliance with applicable rules and regulations of relevant utility companies and government agencies, shall be responsible for (a) arranging for provision to the Project Site during the construction phase of the Project of such water, natural gas, electrical, waste disposal, telecommunications and other available utility services as are reasonably required for completion of such construction in the time and manner contemplated by this Agreement, and (b) payment for all such services.

Section 1.17 Insurance.

A. The Developer shall purchase and maintain insurance at all times during the term of this Agreement as required by law.

B. The Developer shall obtain and maintain or cause its contractors to obtain and maintain in force builder's risk insurance in an amount equal to one hundred percent (100%) of the

insurable value of the portion of Project being constructed protecting against risks of physical loss of the work. Such insurance shall insure against the perils of fire, extended coverage, vandalism and malicious mischief. The Developer shall furnish the City with a certificate of insurance showing coverage of such risks. If a fire or other insured casualty shall occur during the construction of the Project, the Developer shall apply any related insurance proceeds received by the Developer to the construction of the Project. In the event the insurance proceeds are insufficient to fully restore the Project, Developer shall not be obligated to contribute additional funds beyond such insurance proceeds unless Developer elects, in its sole discretion, to do so. In the event of any fire or other insured casualty involving the Project, the Redevelopment Commission agrees to extend the Targeted Project Completion Date by the reasonable period of time required to repair the fire or other casualty. In the event of any fire or other insured casualty involving the Project, insurance proceeds shall be applied in accordance with the terms of any applicable loan or financing documents. To the extent Developer controls such proceeds, they shall be applied to the construction, repair, or reconstruction of the Project unless Developer reasonably determines, in consultation with its lender, that restoration is not commercially feasible. Developer shall not be deemed in default of this Agreement if insurance proceeds are applied to satisfy secured obligations or if reconstruction is not undertaken due to insufficiency of proceeds or lender determination. In the event of any fire or other insured casualty involving the Project, the Redevelopment Commission agrees to extend the Targeted Project Completion Date by the reasonable period of time required to address such casualty, including insurance adjustment, lender approval, permitting, and reconstruction activities, if applicable.
