Emergency Demolition hearing for property located at 5903 Calumet Avenue. Property owner, Ms. Yvonne Saladino, appears with her attorney, Mr. Tim Kelly. Corporation Counsel, Ms. Kristina Kantar, said the property was hit by a vehicle on May 19, 2017 and it may be in danger of collapsing. Ms. Kantar then said the sidewalk is full of debris from the building and it had to be fenced to keep the rubble out of Calumet Avenue. Mr. Kelly said the building is fully insured and there is an engineer at the building now doing an inspection. Mr. Kelly then said there is no proof the building will collapse and Ms. Saladino is taking reasonable efforts to remedy this situation. Mr. Kelly Kearney, Chief of Inspections, said the bay window on the north side is buckling and there was a police call to the building due to someone trying to steal property. Ms. Garay asked who owns the property between 5903 Calumet Avenue and the City Police Garage. Mr. Kearney said there is a different owner of the middle building that is between Ms. Saladino's property and the City's property. Mr. Kelly then asked if the City had an engineer who had looked at the building. Mr. Dean Button responded he was the City Engineer, that he had looked at the building and is very concerned that it may collapse. Ms. Saladino said the bay window has been leaning out since she purchased the building. Mr. Kearney said that he spoke with the insurance company and did an inspection together with the insurance to determine if an Agreement to Rehab can be done, or if the building will need to be self-demolished. Mr. Kelly said he has heard nothing to prove the building will collapse and the condition of the building is not the owner's fault. Ms. Garay said she has sympathy for the owner but both Mr. Margraf of the Fire Department and Mr. Long of the Police Department can speak of the safety hazard the building poses. Ms. Kantar responded that the same procedure is done for all demolition hearings and the City will act in the best interest of the public. Mr. Kearney said the insurance company has said the engineering report will be shared with the City. Ms. Saladino then said there are things she wants to get out of the building, the person trying to steal from the building had to climb over the fence to gain entrance which was dangerous and that she believes the City is being rigid with her. Ms. Garay then said if an order is entered and stayed, no action would be taken until next week when this matter would be before the Board again. Mr. Kelly said the Notice of Violation poses fines if no action is taken within seven (7) days and he does not want his client to be fined. Ms. Kantar advised the City is not seeking fines in this matter. Ms. Garay said if no progress is made the City will move forward. Ms. Kantar then said 10% of the insurance company money will go to the City for work already done, such as board ups, fencing and clean-up of the street according to Indiana Code. Motion by Mr. Margraf to stay the Order to Demolish until May 31, 2018; seconded by Mr. Long. AYES ALL. Motion carried. (Ins. No. 18-

367)

Notice of Violation hearing on property located at 227 Chicago Street. Attorney Marco Molina appears for the property owner. Mr. Nick Farrell, Inspector, Inspections Department, said the Sewer Department, Water Department and the Department of Environmental Management all have identified problems with petroleum contaminated liquids draining into the City storm drain and have had the electric, water and gas turned off at the property. Mr. Farrell then said this has created a safety and health hazard affecting the residents of Hammond. Ms. Kantar advised that this hearing has been set to obtain an order to Vacate and Seal the property and other charges with the Indiana Department of Environmental Management. Mr. Farrell advised that any equipment must be decontaminated by a hazmat company prior to it being from the site and the owner was advised of this by Mr. Ronald Novak, Director of the Department of Environmental Management. Mr. Molina said the property owner wants to repair the property, has had the excess water removed and also would like to take some of his belongings out of the building. Ms. Garay said that prior to anything being removed it must be decontaminated. Mr. Kearney said the alarm system can be activated by a licensed electrician. Mr. Farrell said the items can be removed after decontamination which is a process. Ms. Garay then asked which option is safer. Mr. Farrell said there is no solid flooring surface and the ground has oil and gas visible on the ground. Mr. Farrell requested an order to Vacate and Seal the property and to allow the alarm system to be repaired. Mr. Molina then requested wording be added to allow the property owner to remove items from the property if decontaminated. Motion by Mr. Margraf to enter an order to Vacate and Seal the property, allow the security system to be activated by a license electrician, allow the property owner to retrieve items, after being properly decontaminated from the property and to hold a status hearing on June 28, 2018 seconded by Mr. Long.
