FACILITIES INSPECTED: Norman Dryer

PERSON(s) INTERVIEWED: William Carstens, General Manager  
Paul Walsh, Chief Engineer

INSPECTION OBJECTIVE(s):

To perform an Installation Inspection to evaluate Mickey's Linen & Towel Supply, Inc.'s compliance with applicable air pollution regulations specified in their construction permit and to ensure that the Norman Dryer was constructed as applied for.

SUMMARY OF INSPECTION:

On October 27, 2016 an Installation inspection was conducted for the new Norman Dryer Construction Permit #03741. This dryer was installed as applied for in the construction permit.

No violations found.

---

### ENTRY INTERVIEW:

The Inspector(s) met with William Carstens, the General Manager and with Paul Walsh, the Chief Engineer of this facility. We informed both of them that this is an Installation Inspection and that we wanted to inspect this newly installed Norman Dryer.

### INSPECTION OBSERVATION(s):

1. Process Equipment: **Norman Dryer (Construction Permit# 03741)**
2. Process Description:  
One (1) Norman Dryer with a rated heat input capacity of 2.5 MMBtu/hr.
3. Pollutants Emitted:  
Product of combustion (POC)
4. Control Equipment:  
No control equipment.
5. Applicable Rules:  
The provision of 326 IAC Article 2 (Permit Review Rules) and Hammond Ordinances #7102(Environmental) and #3522 (as Amended) (Air Pollution Control).
6. Emission Limitations:  
Natural gas only
7. Other Permit Requirements:  
See the Construction Permit #3741.
8. Observations:  
The dryer was installed as applied for. It was then started successfully, and observed with no visible emissions.
9. Records Review:  
No records check was conducted.
10. Compliance Status:  
No violations observed or determined during the plant inspection.

### CONCLUSION(s)/RECOMMENDATION(s):

No violations, visible emissions, or other new sources of air emissions were observed.

The current Operating Permit (#03729) will be modified to include the new dryer from Construction Permit #03741.
